

BI-UNIBINDER

POWDER GELIFYING PELLETTIZER - ORGANIC

PREMIX FOR ALL SPECIES

Contains:

Emulsifying, stabilizing, condensing and gelling agents: E412 Guar gum 250,000 mg

Support: calcium sulphate dihydrate q.s. to kg 1

DESCRIPTION

BI-UNIBINDER is a product based on Guar Gum, with strong gelling and binding capacities, it comes in a white powder and should be administered mixed with the feed.

- Binder, gelatifier of the feed

ACTION

BI-UNIBINDER improves the durability (less fine particles) of pelleted or crumbled feed, increases the pellet mill yield and the average life of the dies.

BI-UNIBINDER in feeds rehydrated in water, tends to produce viscous colloidal dispersions

DOSAGE

Mix in addition to the daily ration in the ratio of 0.10% - 0.30%.

Do not exceed the recommended concentrations.

Dosages may vary depending on the health situation of the farm.

The technical service is available to recommend the dosage.

PACKAGES

Available in bags of kg. 25 and big bags of kg. 1000

Store in a cool and dry place, away from heat sources.

To be consumed within 12 months from the production date.
